What Are Molecules Learning?

October 23-27, 2006

Math Workshop:

- Counting 1- 20
- Guess the Pattern
- Learning Math Games
- Recognizing patterns (movement and sound)
- Math internet sites

Language:

- Recognizing and practicing the letters \Pp\ and \Tt\
- Story elements: setting
- Popcorn Words: \on\ \am\
- Handwriting: chicken, giraffe and monkey letters
- Rhyming words: /ap/ (cap, lap)
- Read Aloud: Because of Winn Dixie
Winn Dixie meets a very special friend who works at the library.
- Poetry Journal: *Choosing a pumpkin*
- Writing: Spaces between letters and words

Science:

- Exploring weather

Ms. Cabrales: ASFS Fitness Course
Open Day

ASFS Fitness Course Opening Day: On Tuesday ASFS students met author Greg Tang. With his sense of humor and poems, he shared strategies for the Molecules to use for counting. Add Tang's books to your child's library.

Handwriting: We are looking at three groups of letters and using that when we write. Monkey letters have a tail that goes below the bottom line; **Giraffe letters** touch both the top and **bottom line** and **chicken letters** never cross the road (the middle line).

Student Teacher: Each day Room 149 will have a new "Student Teacher." This special person will be my assistant all day (Molecules take turn). They will control the lights, pass out supplies, lead the line, and extra tasks throughout the day.

International Night: I hope to see all the beautiful Molecules from Room 149 at this wonderful event. I will be back stage to make sure everyone is safe. All K students will stand in one area on the stage. I am looking forward to sharing great treats from all over the world after the concert.

Kindergarten Bulletin Board

10/27	International Night	MP Room	7:00
10/27	ACFD Visits the Molecules		2:00
10/31	Halloween Parade and Party		1:30
