What Are Molecules Learning?

June 13-17, 2005

Math

- Using Tally Marks
- Subtraction Word Problems
- Counting to 100
- Time to the half hour and hour
- Addition story problems
- Counting backwards from 20
- Skip counting by 2's and 5's
- Review of past concepts

Language

- Handwriting
- High Frequency words
- Poetry
- Ending sounds
- Word Choice
- Characters and setting
- Fluency and expression
- Read a loud – Crash: Penn Webb is the new kid on the block. He looks and sounds different. Crash doesn't like him and he lets him know in a very mean way.
- Words families \ake\

Science:

- Planting (labeling different parts)
- Animals (insects and reptiles)

Photo Gallery: Check out the class web page for the latest and greatest photos of the world's greatest kindergarten students.

Sharing: Students who would like to share something special may do so all next week. If the special something is alive please let me know in advance.

Animals Projects: Monday, Molecules will be bringing in their projects to share with others. Directions for the project are on the Parent Resource page

Happy Birthday: Please join us as we celebrate ASFS 10th Anniversary on Monday, June 20. The event will begin in front of the school from 7:00 – 9:00. Come tour the school, see the new aquarium and enjoy birthday cake.

Summer Books: Coming home next week will be a "summer reading packet" which will include 4-5 books on your child's reading level. These books will be at a slightly higher reading level. Thank you in advance for taking time to read these books with your child.
